Sharp AC Warranty, Return Policy & Service Centers

Compiled from the attached AC document and official Sharp policy/manual pages.

Product context

The attached Sharp AC document lists Reiryou and Seiryo split AC models, window AC models, and warranty highlights including 5-year comprehensive warranty and 10-year compressor warranty for the product family shown in the brochure.

Warranty

The brochure states a 5-year comprehensive warranty and a 10-year compressor warranty for the featured AC line. Final warranty eligibility can vary by model, so the serial/model label and invoice should be checked at purchase and installation.

Return and replacement policy

Sharp's store policy says products are eligible for replacement if they are damaged, defective, or not as described. Buyers must notify the company within 7 days of receiving the product, keep all packaging/accessories/documentation, and return the product within 14 days of receiving the return label.

The policy also says misuse, unauthorized modifications, accidents, and custom/personalized products are excluded unless defective or not as described. If replacement is not possible, a refund may be offered to the original payment method, usually within 5-7 business days after processing.

Service centers in Bengaluru

Public web results show Sharp support presence in Bengaluru, including the Sharp India head office in Vasanth Nagar and private service listings that advertise Sharp AC support across Bangalore neighborhoods. For a clean handover document, list the official company contact as the head office and note that local service availability should be confirmed at booking time.

Contact	Details
Head office	Sharp India Ltd, 8th Main Road, 2nd Cross, Vasanth Nagar, Bangalore - 560001.
Company website	store.sharpappliances.in
Customer service	contact@sharp-oa.com
Bengaluru support	Search results show multiple Sharp AC service listings in Bangalore; verify before dispatch.

Note

This document is a buyer-facing summary, not a legal policy. The official store policy and service coordination should be confirmed against the invoice and model number.
